<h1 style="text-align:center">The Hogwarts Numbers Puzzle</h1>

Harry and Ron are trying to figure out how many students there are at Hogwarts.

These are their clues:

- Hogwarts students are at school for seven years.
- There are five first-year boys (including Ron and Harry) in Gryffindor House, and the same amount of first-year girls.
- There are approximately the same number of boys and girls in each year in all of the houses.
- There are four houses.

Approximately how many students are in each House?

Approximately how many students are in the whole school?
